RE: FOIA Request #18-199 Source Documents for FOIA #18-139

Dear Mr. Harry;

The City Attorney FOIA Coordinator has forwarded to my office the communications regarding the FOIA filed regarding your request for public records for retirement "source documents", specifically "retirement system computation sheet". Your request was denied because the information requested is exempt from disclosure by state statute.

After a review of the communications from the City Attorney office, it is my decision, as the current City Council President, to uphold the denial of the documents.

If you choose to pursue this thru the Circuit Court and the Court determines that records have been arbitrarily and capriciously denied, it may accrue actual or compensatory damages, punitive damages (in the amount \$1,000.00), reasonable attorney fees, costs and disbursements.

Sincerely,

A handwritten signature in black ink that reads "Patricia Spitzley".

Patricia Spitzley
City Council President
