**Subject:** Medical Facility Complaint

Hello,

I am looking for some guidance and advice.

My son was at a drug/alcohol rehab center in Battle Creek. "A Forever Recovery" is the name. This facility completely misrepresents itself. It is also run by Scientologist without full disclosure of this fact. He was treated horribly. He had a seizure and was not given proper medication by the facility. He was kicked out of the facility due to him asking to leave early.

Where can I file a complaint for this facility to be looked into?

Thank you very much!
